

Garbage Disposal Rules

1. Strict observance of collection days for combustible waste

Collection in the Toyohama area is every Monday and Thursday at 8:00 a.m.

Please put out your garbage between the evening of the previous day and 8:00 a.m. on the collection day.

2. How to dispose of plastic packaging waste

It has been reported that some plastic packaging waste is being put out without being washed, even when dirty.

Unwashed items should be placed in combustible waste.

3. How to tie garbage bags

If the bags are not tied securely, garbage may spill out.

For items containing a lot of moisture, water may leak out, so be sure to tie not only the handles but also the bag itself firmly.
